Informed Consent for Physical Therapy Services

Physical Therapy involves the use of many different types of physical evaluations and treatments. At Pro Performance Therapy, we use a variety of procedures and modalities to help us to try and improve your function. As with all forms of medical treatment, there are benefits and risks involved with physical therapy.

The purpose of physical therapy is to treat disease, injury and disability by examination, evaluation, diagnosis, prognosis and intervention by use of rehabilitative procedures, mobilization, massage, exercises, and physical agents to aid the patient in achieving maximum potential within their capabilities and to accelerate recovery and reduce the length of functional recovery. All procedures will be thoroughly explained to you before you are asked to perform them.

Response to physical therapy intervention varies from person to person; hence, it is not possible to accurately predict your response to a specific modality, procedure, or exercise protocol. We are not able to guarantee precisely what your reaction to a treatment might be, nor can we guarantee that our treatment will help the condition for which you are seeking treatment. There is also a risk that your treatment may cause pain or injury, or may aggravate previously existing conditions.

You have the right to ask your physical therapist what type of treatment he or she is planning based on your history, diagnosis, symptoms and testing results. You may also discuss with your therapist what the potential risks and benefits of a specific treatment might be. You have the right to decline any portion of your treatment at any time or during your treatment session.

I have read this consent form and understand the risks involved in physical therapy and agree to fully cooperate, participate in all physical therapy procedures, and comply with the established plan of care.

CANCELLATION/NO SHOW POLICY

Pro Performance Therapy schedules patients to provide the highest level of quality care, while attempting to accommodate our patient's schedules at their convenience. By providing a reserved appointment time, we can minimize your wait time and assure continuity of your treatment. We understand that emergencies and other scheduling conflicts arise and are sometimes unavoidable. While we are sensitive to circumstances, chronic cancellations and no shows prevent us from accommodating other patients, as well as affecting your care.

Pro Performance Therapy requires at least a 12 hours' notice for cancellations. Patients who do not give 12 hours' notice will be responsible for a \$35.00 charge. You can notify our office of a cancellation by phone or email. Each appointment that is a NO SHOW will be subject to a charge on the first offense. This charge is not covered by Workers' Compensation, health insurance, or a third-party payer. It will be the responsibility of the patient to pay this charge.

After missing two appointments without notice, you may be placed on a same day scheduling policy for your treatments, which would not allow you to schedule any appointments in advance. This will require you to call for an open appointment on the day you would like to receive treatment. We will do everything possible to accommodate you, as the space on our schedule permits. Please note that your attendance is recorded in your medical record and is available for your physician or third-party payer to view. A patient's refusal to initial does not exempt them from this policy.

Thank you for giving us the opportunity to serve you, and please feel free to ask us any questions concerning our services, policies and fees.
